

RATES FOR WATER SUPPLIED TO METERED CUSTOMERS

AVAILABILITY

This schedule is applicable to all customers in the territory taking water service continuously throughout the twelve months of the year, except for municipal and private fire protection, for use solely by the customer on the customer's own premises.

RATE

Consumption Charge

Quarterly Billing

First	9,000	Gallons/Qtr or less.....	\$	per Service Charge below
Above	9,000	Gallons/Qtr4587 per 100 gallons

Monthly Billing

First	3,000	Gallons/Month or less.....	\$	per Service Charge below
Above	3,000	Gallons/Month4587 per 100 gallons

Each meter will be billed in accordance with this schedule. Meters on different services, even though serving the same customer, will not be added together under one billing, but each meter will be billed separately in accordance with this schedule.

SERVICE CHARGE: The service charge for different sizes of meters will be billed on either the monthly or quarterly basis in accordance with the Company's billing procedure, and these charges shall be as follows:

SERVICES FOR MUNICIPAL PURPOSES

AVAILABILITY

This schedule is available to all Towns served, as listed below.

RATE

I. EXISTING HYDRANTS

For Standard Fire Hydrants in existence on June 1, 2013 in streets, roads, or rights-of-way as ordered by the municipality, there shall be paid to the Utility by the municipality served a Fire Protection Charge as follows:

Town of Parsonsfield

For 21 Standard Fire Hydrants \$ 4,366.32 per month in advance |

Town of Porter

For 19 Standard Fire Hydrants \$ 3,950.48 per month in advance |

Town of Hiram

For 6 Standard Fire Hydrants \$ 1,247.52 per month in advance |

II. NEW HYDRANTS

For each additional Standard Fire Hydrant connected to any main charges will be governed by Chapter 69 of the Commission's Rules and Regulations.

III. GENERAL

All hydrants installed by the Utility for Public Fire Protection purposes will be cared for and maintained in good working order (unavoidable accidents excepted) by the Utility. Hydrants are located at the request of the town with the approval of the Company. Hydrants may be connected only to mains having a diameter of 6 inches or larger. Once any Fire Hydrants are actually installed and are in operation, the total monthly Fire Protection charge then in effect shall not be reduced should the municipality order one or more hydrants discontinued.

Should the Town order any hydrant moved to a different location, the Town shall pay all costs of moving said hydrant or hydrants.

IV. SERVICE FOR OTHER MUNICIPAL PURPOSES

All present and future buildings or water services owned or operated by the municipality or owned or operated by any present or future municipality school, sewer or other districts or any subdivision thereof, shall be metered and same shall be billed at the regular filed meter rates. Further, the regular Private Fire Protection rates, if applicable, shall apply also to the above-mentioned property. The municipality shall be bound by the applicable Terms and Conditions as filed with the Public Utilities Commission.

TERMS OF PAYMENT: Bills under these rates are net and will be due and payable upon presentation. All billings will be in arrears unless otherwise noted; public and private fire connection charges shall be due and payable in advance on a monthly basis. Billing procedures are further defined in Section III of the company's Terms and Conditions. Whether the billing is monthly, quarterly or seasonal is at the option of the Company.

In the event that the bill is not paid within 25 days from the postmarked date of the bill, the charges become subject to a late payment charge as defined in the company's Terms and Conditions.

For a schedule of other charges and fees, please refer to the Terms and Conditions.
