Maine Water Employees Paddle With A Purpose

Saco, ME- **June 8, 2018**-- On Saturday, June 2nd, a team of Maine Water and Connecticut Water employees joined with 250 other participants and paddled along the Kennebec River to raise money for Pine Tree Camp. The Kennebec River is a vital water resource for the Skowhegan Division of Maine Water Company. Through sponsorship and pledges, the team raised over \$4,500 for the annual Paddle for Pine Tree Camp.

All proceeds directly support the campership fund, and are a critical part of the camp's open door tuition policy. Since 1945, Pine Tree Camp has welcomed all who could benefit, regardless of their ability to pay. Ninety-nine percent of campers cannot afford to pay the tuition and the paddle is a major fundraiser to ensure they can attend. The camp provides an innovative barrier-free environment offering fully accessible recreation to Maine children and adults with physical and/or developmental disabilities.

The Maine Water Company serves more than 32,000 customers, or approximately 85,000 people, in 21 communities across Maine. The Biddeford Saco Division serves 16,500 customers, or approximately 48,000 people in Biddeford, Saco, Old Orchard Beach and Scarborough. For more information, visit: www.MaineWater.com
