Working Together with the Coastal Mountains Land Trust

We're a proud partner of the Coastal Mountains Land Trust (CMLT) and have worked with them to protect land for the community since 2003. Through our partnership and the sale of conservation easements on water company land, we have conserved nearly 1,300 acres of land around Spruce Mountain, Grassy Pond and Mirror Lake (which serve as water supply sources for the Camden Rockland Division).

In addition to benefitting all Mainers through the preservation of open space and availability of recreation on the land, Maine Water customers in the Camden Rockland Division also received credits in 2020 and 2019 from the sale of the easements. Together, the credits put about \$40 back into the pockets of the average Camden Rockland customer.

Along with the conservation sales, Maine Water employees have enjoyed a long history of volunteering to construct and maintain CMLT trails, like the newly opened Round the Mountain Trail.

This year, we were thrilled to be recognized at the trail head in this beautiful stone engraving. We're proud to do our part as environmental stewards for generations of Mainers to come and thank our employees for the many hours they've dedicated toward making this trail a reality.

New Online Bill Pay Services For Maine Water Customers Have Arrived

Maine Water is pleased to announce a new, user-friendly online portal for e-billing and automatic payments.

In partnership with Invoice Cloud, Maine Water customers can now enjoy the convenience of 24-hour online bill pay, pay by text and 24-hour automated pay by phone. In addition to accepting major credit cards and ACH payments, customers also have the option of utilizing Apple Pay, Google Pay, PayPal and Venmo.

For the security of your data, you must re-enter your banking and personal information in order to continue utilizing auto pay and e-billing.

Please visit mainewater.com and click "Pay My Bill" to update your information and ensure that your next payment is processed. The process takes about 5 minutes.

Our Coats for Kids employee coat drive is in its 7th year! This year, we're donating over 100 coats to kids in need across Maine in time for the winter weather to arrive. The brand-new coats are funded entirely by employee donations.

Giving back to our community and being good stewards of the environment are important to Maine Water employees. This fall, we're excited to participate in the Saco River Clean Up in partnership with the Saco Bay Rotary Club and with the Coastal Mountains Land Trust on a trail workday at Grassy Pond.
