SERVICES FOR MUNICIPAL PURPOSES

AVAILABILITY

This schedule is available to the Town of Oakland.

RATE

I. EXISTING HYDRANTS

For Standard Fire Hydrants in existence on December 31, 2021 in streets, roads, or rights-of-way as ordered by the municipality, there shall be paid to the Utility by the municipality served a Fire Protection Charge as follows:

For 88 Standard Fire Hydrants \$ 20,655.70 per month in advance

II. NEW HYDRANTS

For each additional Standard Fire Hydrant connected to any main charges will be governed by Chapter 69 of the Commission's Rules and Regulations.

III. GENERAL

All hydrants installed by the Utility for Public Fire Protection purposes will be cared for and maintained in good working order (unavoidable accidents excepted) by the Utility. Hydrants are located at the request of the town with the approval of the Company. Hydrants may be connected only to mains having a diameter of 6 inches or larger. Once any Fire Hydrants are actually installed and are in operation, the total monthly Fire Protection charge then in effect shall not be reduced should the municipality order one or more hydrants discontinued.

Should the Town order any hydrant moved to a different location, the Town shall pay all costs of moving said hydrant or hydrants.

IV. SERVICE FOR OTHER MUNICIPAL PURPOSES

All present and future buildings or water services owned or operated by the municipality or owned or operated by any present or future municipality school, sewer or other districts or any subdivision thereof, shall be metered and same shall be billed at the regular filed meter rates. Further, the regular Private Fire Protection rates, if applicable, shall apply also to the above-mentioned property. The municipality shall be bound by the applicable Terms and Conditions as filed with the Public Utilities Commission.
