SERVICES FOR MUNICIPAL PURPOSES (cont'd)III. GENERAL

All hydrants installed by the Utility for Public Fire Protection purposes will be cared for and maintained in good working order (unavoidable accidents excepted) by the Utility. Hydrants are to be connected only to mains having a diameter of 6 inches or larger.

Once any Fire Hydrants are actually installed and are in operation, the total monthly Fire Protection charge then in effect shall not be reduced should the municipality order one or more hydrants discontinued.

Should the Town order any hydrant moved to a different location, the Town shall pay all costs of moving said hydrant or hydrants.

IV. SERVICE FOR OTHER MUNICIPAL PURPOSES

All present and future buildings or water services owned or operated by the municipality or owned or operated by any present or future municipality school, sewer or other districts or any subdivision thereof, shall be metered and same shall be billed at the regular filed meter rates. Further, the regular Private Fire Protection rates, if applicable, shall apply also to the above-mentioned property. The municipality shall be bound by the applicable Terms and Conditions as filed with the Public Utilities Commission.

SPECIAL INDUSTRIAL SERVICE RATEAVAILABILITY

This schedule is applicable to any large industrial customer served directly by a main that is 16" or larger in diameter and for which the infrastructure of the water system was designed and constructed to meet the special needs of the customer's industrial facility.

RATESMonthly Billing Consumption Charge

Per 100 Cu Ft/Month \$0.2880

The rates in this schedule assume that service to the industrial customer is being provided by two meters. Each meter will be billed in accordance with this schedule. If meters are reduced or eliminated the total fee will not be reduced if the water to the property is available for use as in accordance with this schedule.

SERVICE CHARGE: These charges shall be as follows:

Per Meter Monthly Fee  
For Large Ind. Customer  
\$41,975.47

TERMS OF PAYMENT: Bills under these rates are net and will be due and payable upon presentation. All billings will be in arrears unless otherwise noted; public and private fire connection charges shall be due and payable in advance on a monthly basis. Billing procedures are further defined in Section III of the company's Terms and Conditions. Whether the billing is monthly, quarterly or seasonal is at the option of the Company.

In the event that the bill is not paid within 25 days from the postmarked date of the bill, the charges become subject to a late payment charge as defined on page 4 of the company's Terms and Conditions.

For a schedule of other charges and fees, please refer to the Terms and Conditions.
